

CALLS MR. BRYAN A BALLOON MAN

Roosevelt's Voice Keeps Its
Tone In West Virginia
Today.

HE HAS TEN DAYS MORE

Thousands Greet the Nebras-
kan At Auburn, N. Y.—
Rochester Tonight.

FIRST REPUBLICAN ESTIMATE

Mason City, W. Va., Oct. 19.—Gov. Roosevelt resumed his work this morning at Ravenswood with rear platform speeches in a firm tone. His schedule is for ten speeches today. It seems improbable that his voice will be in good trim for the big New York meeting on the twenty-seventh after nine or ten days' more of campaigning in New York. Roosevelt in his talk referred to Bryan as the balloon man.

Bryan at Rochester Tonight.
Ithaca, N. Y., October 19.—Seven thousand people greeted Bryan this morning at Auburn but when he arrived here he found but two hundred persons who wished to hear him. Bryan will make but two stops this afternoon, at Courtlandt and Binghamton. Rochester will hear him at nine o'clock tonight.

First Official Estimate.
New York, October 19.—Senator Scott at the republican headquarters this morning gave out the first official estimate of the electoral vote next month as follows: Republican, 284; democratic, 112; doubtful with chance of republicans to win, 27.

Hanna in Nebraska.
Madison, Neb., Oct. 19.—Hanna invaded Bryan's state today and tonight will speak at the democratic leader's home city, in Lincoln. At Norfolk he was asked if he had ever seen a fifty-cent dollar. Hanna replied holding up a coin: "here it is, but I don't want to talk free silver. That is a dead issue. Even Bryan has abandoned that; also imperialism. Bryan's arraignment of class against class is his last argument."

Took Up H. C. Payne.
Chicago, Ill., Oct. 19.—Republican vice chairman, Payne, yesterday offered two to one that Bryan would not get as many electoral votes as in ninety-six. Today Broker J. J. Towfend offered to take \$50,000 worth but Payne said that he could not afford to bet a hundred thousand, but he may place it elsewhere.

Sioux Falls Holds Hanna.
Sioux Falls, S. D., Oct. 19.—Senator Hanna's tour of South Dakota ended here. The demonstration in celebration of it was one of the old-fashioned kind, which are possible, now only where people are not ashamed to "holer" their politics. And Senator Pettigrew, who lives here, did not figure in it. The Hanna special was held back until 8 o'clock to give Sioux Falls a chance to "throw itself." It did. Senator Hanna traveled an erratic course of about 1,000 miles in South Dakota, zigzagging through doubtful counties. He has made thirty-two stops and thirty-five speeches, and has addressed fully 40,000 people.

Roosevelt in West Virginia.
Parkersburg, W. Va., Oct. 19.—Governor Roosevelt crossed over from Ohio at noon and began his work in West Virginia. Before quitting the Buckeye state the governor spoke at Canton, the home of President McKinley, Akron and Navarre. The enthusiasm was great.

The largest meeting of the day was that of Wheeling. There Governor Roosevelt spoke at the fair grounds to an audience which filled the amphitheater and the exhibit grounds in front. There was a parade, in which hundreds marched.

Bryan Has a Busy Day.
Syracuse, N. Y., Oct. 19.—William J. Bryan in his tour of the Empire State for the day traveled from the Hudson river to Central New York. Starting from Albany, he followed the Mohawk river and the Erie canal to Syracuse, where he arrived late in the afternoon. Here he turned to the north and journeyed to Lake Ontario's shores, where he spoke at Oswego. Returning to this city later he made an address here at night. Rain failed to dampen the ardent and enthusiasm of the crowd which greeted Mr. Bryan at the night rally here.

Buys the Milwaukee & Superior.
Milwaukee, Wis., Oct. 19.—The Chicago, Milwaukee & St. Paul railway today closed a deal for the purchase of the Milwaukee & Superior railway, a line twenty-nine miles long, running from Granville to North Lake. The Milwaukee & Superior holds a charter that entitles it to build to Lake Superior.

ELOPERS MARRY WITH CONSENT. Couple Who Ran Away from Kenosha Overcome Their Difficulties.

Kenosha, Wis., Oct. 19.—After wandering over the state for more than a week seeking for a minister to marry them Anna Schulte and Charles Smith the two young people aged 16 and 20 respectively, who eloped from this city last week, were married in Sheboygan this morning. They finally wrote home and asked forgiveness but refused to return to the parental roof. The parents then gave their consent to the wedding and the judge at Sheboygan issued an order for the marriage of the couple. They absolutely refuse to return to Kenosha, and will make their home in Sheboygan. Both are well-known socially.

JOHN SHERMAN LOSES GROUND, Shows Signs of Increasing Weakness and Recovery Is Doubtful.

Washington, Oct. 19.—There was no material change today in the condition of John Sherman, former secretary of the treasury, except that he showed signs of increasing weakness. The patient is partially unconscious much of the time, rallying and brightening at intervals. He has a disagreeable cough, which irritates him a great deal in his debilitated condition. While he may rally, little hope is expressed for his complete recovery. Although his condition is critical, his death is not regarded as imminent.

BOB LA FOLLETTE AT WEST SUPERIOR

Immense Parade Through Illuminated
Streets—Great Hall Packed to
the Doors With People.

West Superior, Wis., Oct. 19.—More than 1,000 men with torches and men without torches marching in procession in the second city of the state escorted Robert M. La Follette to the fair rink last evening. Arches of fire spanned the streets along the line, real fire blazed the curb lines, and rockets and Roman candles filled the air with the glories of the pyrotechnic art.

The rink was a sight to behold with a seating capacity of 3,500. It was packed to the danger line. The first line of humanity sat upon the front of the stage and from that as a starting point the vast crowd stretched line upon line to the walls of the great building, while men perched themselves upon the timber braces.

It was the most responsive and enthusiastic audience that Mr. La Follette has addressed during the present campaign. "That's a hot one," hit them again, Bob, and like expressions were heard above the applause. The speaker caught the enthusiasm of his auditors and at their invitation he took off his coat and discussed the issues with telling effect. When he reached state issues and his exposition of the proposed primary election law the great hall rang with applause. Mr. La Follette speaks today at Cumberland, Turtle Lake, Clear Lake, New Richmond, Hudson, River Falls and at St. Paul this evening.

KICKED IN THE FACE BY A HORSE

Serious Accident to a Koshkonong Boy
—His Skull Fractured and Nose
Broken.

Koshkonong, Oct. 19.—Willie Cullen, the 14-year old son of Archie Cullen, living one mile east of the station was kicked by a horse in the face yesterday forenoon, fracturing his skull and breaking the small bones across the upper part of his nose.

The boy went to a pasture to catch the horse and very soon his cries were heard by his father who was husking corn in a field near by. When he reached the boy he found him unable to stand and his face covered with blood.

They took him immediately to the doctor's at Fort Atkinson. A surgeon from Watertown was called to assist in examining the wound. He was left, under the doctor's care and it is hoped will soon recover sufficiently to be brought home. Just about a year ago this family was afflicted in the loss of their little four-year-old daughter from accidental poisoning.

Riot at Düwie Meeting.

London, Oct. 19.—Three hundred students from the London hospitals created a riot in the Rev. John Alexander Dowie's meeting in St. Martin's town hall this afternoon. The healer was compelled to take refuge in flight in order to escape bodily injury. A "free-for-all" fight took place between the students and Dowie's followers and many were severely injured. The police attacked the rioters in force and made many arrests.

Great Irrigation Scheme.

Boise, Ida., Oct. 19.—The state has segregated 249,000 acres of land on the Snake River near Shoshone Falls, to be reclaimed under the Carey act by canals to be taken out of the river at the head of the canyon leading to the falls. The undertaking will cost \$1,500,000. This is the greatest irrigation undertaking ever projected in this state and one of the largest in the country.

LEGAL FICTION IN THE YOUTSEY TRIAL

YOUNG MAN IS DYING STILL
THE TRIAL GOES ON.

Prisoner Is Insane—For Nine Days He
Has Been Unconscious and May Die
Any Moment—Judge Orders Court
House Bell Stopped For Fear of
Rousing Him.

Georgetown, Ky., Oct. 19.—Though Henry E. Youtsey, the person most concerned knows it not, the jury which is trying his unconscious form will soon be looked upon to decide whether he killed William Goebel. The testimony for both sides closed yesterday afternoon at 3 o'clock, and the judge instructed the jury.

For ten days Youtsey has lain as senseless as clay or filled the air with the ravings of a maniac. From paroxysm he has lapsed into a comatose state, and from that he has aroused to spend his strength with the fury of a wild animal. Yesterday, lest outbreaks, the judge ordered that the tolling of the court house bell should cease.

By a Fiction of Law.

For one week the petit juryroom in the court house has been hospital, insane ward, and witness seat. By fiction of law, created for the occasion, the motionless body, visible on a protruding cot, has been for that time the prisoner at the bar.

In that fashion has this man been tried for his life; in that fashion has he been allowed the right of having his accusers confront him in open court. He did not hear the arguments of the prosecution made in the afternoon in his nominal presence—addresses which called upon the jury to assess the penalty of his own life against him. Neither did he hear the equally impassioned appeals made in his defense by his attorneys.

Staring and unseeing his eyes looked from the level of his pillow through the door and into the jury box. His physical case now has reached such a desperate strait that the attending physicians fear that the awakening to sanity will be the signal for the coming of death. Even if the weight does not lift from his reason it is said that his body cannot resist the wear and tear of the spasms much longer.

Does Not Know His Wife.

In the throes of a paroxysm last night he leaped from his couch, and, not unclothing his eyes, he seized a chair and broke it into bits before his guards could restrain him. In three days he has not given a sign of recognizing any one, not even the faithful wife, who has remained by his side from the first.

This trial of an insensate being has been allowed to continue because no precedent has been found which could govern the case. It has been argued by a prosecution, to which Judge Cantrell has given willing ear, that the prisoner was present, that no rights were being lost to him by his condition, and that there was no immediate danger to his life in the fact that he was unconscious.

Against the legal plausibility of the contentions has been placed the spectacle, if not travesty, of Youtsey's body being made to take Youtsey's place on the witness stand.

CREATE A NATIONAL HOLIDAY.

Master Horsehoers Select Day in August for the Trade.

Milwaukee, Wis., Oct. 19.—The National Horsehoers today passed a law creating a day for the national holiday of the trade, the date being the first Saturday after the second Monday of August each year. The association decided to establish an institute on the basis of a veterinary college. Members will be required to have indentured apprentices and be compelled to properly educate them. The school will be in operation within two years.

BOOM BRYAN ON A TOMBSTONE.

Friends of a Dead Missourian Fashion a Queer Epitaph.

Mexico, Mo., Oct. 19.—Probably the oddest epitaph on record has been ordered on a monument at the grave of B. B. Morris, who died in Montgomery county in April. It is as follows: "In memory of B. B. Morris; died in April. Kind friends: I've left behind, cast your vote for William Jennings Bryan."

The proprietor of the marble works says that it is the oddest he ever saw. It was ordered by the friends of the deceased. Whether Mr. Morris requested politics on his tombstone or not is not known.

One of 28th Congress Left.

General John A. McClernand, who died the other day, was one of the last two survivors of the twenty-eighth congress, which met in December, 1843. Ex-Governor Ramsey of Minnesota is the other.

Electric Motor for Automobiles.

A new electric motor for automobiles has been devised which restores energy to the storage battery when the vehicle is running down hill.

LIBRARY WILL BE DEDICATED TODAY

STATE HISTORICAL SOCIETY
TAKES FORMAL POSSESSION.

Exercises Are Being Held In Madison
This Afternoon—Addresses By
President Adams, Regent Johnston
and Charles Francis Adams—Great
Flower Parade In Capital City.

Madison, Wis., Oct. 19.—Today the new and magnificent building of the State Historical society, which has been under construction for three years, will be formally dedicated. The great library of the society and its famous museum have been in their new quarters for several weeks, and everything is now in readiness for the dedication.

The library building stands on Park street on ground belonging to the university, and faces the great quadrangle of that institution. It is one of the most perfect library buildings in the United States.

The dedication exercises will be held this afternoon and short addresses will be made by President Charles Kendall Adams of the university; John Johnston, president, and R. G. Thwaites, secretary of the society; Senator J. H. Stout of Menomonie, president of the special commission which had charge of the construction of the building; Prof. James K. Hosmer of Minneapolis, and Prof. A. C. McLaughlin of the University of Michigan. This evening, the dedication address will be made by Charles Francis Adams of Massachusetts.

Great Flower Parade.

Flowers, beautiful carriages, pretty women and Elks with baby carriages containing a sack of flour were the features of the street fair and carnival yesterday. Fully 25,000 people swarmed about the streets, and the crowd was so great that even the big park about the capital was so crowded that people wormed their way about with difficulty.

The center piece of the day was the afternoon floral parade which was made up of thirty horse carriages and fifteen pony carriages gaily decorated with flowers, and a half hundred decorated bicycles. The parade was announced the best ever seen in the Northwest, and it fully came up to the expectations of the crowd. Miss Flora Chapin, flower queen of the carnival, occupied the first carriage, which was decorated with red roses.

WIFE ALLEGES IT IS A BASE PLOT

Married Woman In Milwaukee Says
She Was Trapped Into a Com-
promising Situation.

Milwaukee, Wis., Oct. 19.—Warrants are in the hands of District Attorney Umbreit for the arrest of S. R. Anderson, a wealthy lumber merchant; Herbert Reed, a Chicago attorney; and Frank Sherman, a Chicago private detective, charging them with conspiracy and abduction. Sanderson operates in northern Wisconsin and Minnesota, and has headquarters in Chicago.

Sanderson was separated from his wife six months ago, Mrs. Sanderson coming to this city and taking apartments at a West Side boarding house. Four weeks ago Frank Sherwood, it is alleged, came here, hunted up Mrs. Sanderson, and took lodgings in the same apartment house.

This, according to the woman's allegations, was the beginning of the conspiracy. She became acquainted with Sherwood, and on the night of October 9, she says, he succeeded in what seemed to be a compromising position. Then, she says, her husband and Reed appeared on the scene. Mrs. Sanderson claims that the alleged conspiracy had for a purpose the furnishing of grounds for a divorce suit.

MASKED MEN ROB BANK IN MISSOURI

PUTS LEGAL BAN ON SPEECH, Milwaukee Judge Enjoins Woman from Abusing Her Husband.

Milwaukee, Wis., Oct. 19.—A novel thing in injunctions, even in this city where injunctions have been so much overworked, was that issued by Judge Ludwig this morning. It restrains a wife from calling her husband impolite names or from interfering with him in his business. So far as known Judge Ludwig has the nerve to attempt to do through the order of the circuit court, what no man in this country has ever before accomplished—make a woman keep still by an injunctive order of the court. The order is in the suit of Emilie Koerner against Herman Koerner. The defendant has a grocery on Fourth avenue and makes affidavit that his wife calls him names about his place of business, interferes with the customers and creates a disturbance.

MAY NAME LEVI P. MORTON.

President Said to Favor Him for the
Hague Arbitration Body.

Washington, Oct. 19.—Persistent rumor today names ex-Vice President Levi P. Morton as the third member on the part of the United States on The Hague international arbitration board. Mr. Morton saw the president yesterday, but at the white house neither confirmation or denial of the reports was obtainable.

PAYNE OFFERS TO BET ON RESULT

Says Bryan's Electoral Vote Will Be
Less Than It Was In 1896—Will
Give Odds of 2 to 1.

Chicago, Oct. 19.—Henry C. Payne, vice chairman of the republican national committee, is not considered by those who know him best as a plunger, a daring speculator nor yet a betting man, but he declared today his willingness to bet two to one that Bryan does not have as many electoral votes this year as he received in 1896. "This presidential fight is a picnic," said Mr. Payne. "What the republicans are preparing for is the future. The reason we are making such a fight in the mountain states is not that we need their electoral votes to insure the re-election of President McKinley, but we may need their votes in the national senate and the house of representatives in years to come. New York state is going republican this year, but in some future year local conditions may give it democratic senators and congressmen."

Mr. Payne said that South Dakota will give McKinley a larger majority than it ever gave a presidential candidate. Senator Pettigrew it is asserted, has abandoned hope for carrying that state for Bryan and is now working night and day to save his own neck.

"I only care to speak of the sound money democrats I know, and therefore I will confine my statement to Wisconsin, but I believe the same condition prevails in other states. In Wisconsin 90 per cent. of the sound money democrats who supported McKinley and Hobart and Palmer and Buckner in 1896 will vote the republican ticket this year."

GETS VERDICT FOR \$37,000.

Mrs. Rhoads Recovers Large Sum for
Death of Husband.

New York, Oct. 19.—Mrs. Elizabeth Rhoads has obtained a verdict in the Supreme Court for \$37,000 in the suit brought by her as administratrix of her husband, George B. Rhoads, against the Metropolitan Street Railway company. This is the largest verdict rendered against a surface road in this city for many years. Mrs. Rhoads claimed \$50,000 damages. Her husband was run down July 10, 1899, by a car belonging to the defendant company and died a few hours later.

It was in connection with the death of Captain Rhoads that Policeman Thomas F. O'Brien was sent to Sing Sing prison. He was convicted of stealing the captain's watch, which had been taken from the injured man.

Roberts an Episcopalian.

Lord Roberts' denial that he is a Baptist and his declaration that he is a member of the English Established church recalls the fact that his grandfather, the Rev. John Roberts, was one of the minor canons of St. Patrick's Cathedral, Dublin, toward the close of the last century.

HITCH OVER THE POWDER QUESTION

Miners Will Insist On Get-
ting It at a Reduced
Price.

REALLY GAIN NOTHING

Eight Hundred Coal Mine Strik-
ers Raid Markle's Jeddo Col-
lieries This Morning.

SETTLEMENT MAY BE DELAYED

Hazleton, Pa., Oct. 19.—Eight hundred strikers raided Markle's Jeddo collieries this morning and succeeded in persuading many miners not to go to work. They were led by Mother Jones. There were several scrimmages but nothing serious occurred. It now looks as if there would be a prolonged controversy over the powder question.

May Prolong Settlement.

Following the action of the Philadelphia convention of the operators notices are beginning to make their appearance all over the anthracite field saying that the operators accept the terms of the Scranton convention of the miners, but there is a foot note which is not acceptable to the men, and which may cause a long delay in settling the strike. This refers to the powder question.

When the men made their original demands they insisted on a reduction in the price of powder, but some of the companies have been posting notices which were in effect acceptance of the demands of the men for an increase of wages ten per cent., but made to read that the reduction in the price of powder would be taken into consideration in making the increase.

Miners Say They Gain Nothing.

There has been some talk and earnest figuring on the part of the miners. They discovered that in the event of the acceptance of the scale proposed by the operators they would in reality be gaining nothing, and with this idea in their minds the notices of the Lehigh Valley and other companies which were posted have no significance to them. The strikers look upon these notices as an attempt to stampede them to work.

The miners of the various sections have assurance of the support of their brothers in the various fields, and they are not going to be satisfied with anything short of their original demands.

No Union Meeting Called.

The strike cannot be called off until there has been a meeting of the general executive board, and President Mitchell said today that there had not been a call for a meeting of the board. This is taken to indicate that President Mitchell has no information which would lead him to a settlement is close at hand, although that is the general impression.

WIDOW OF LANE IN COURT.

Ferrell Drops His Eyes as She Passes
to the Witness Chair.

Marysville, O., Oct. 19.—Rosslyn Ferrell, who is on trial for the murder of Express Messenger Lane, was today quite pale and there are dark rings below his eyes.

Mrs. Louisa Lane, widow of the murdered messenger, was a witness this morning. She was dressed in deep mourning. Behind her, as she entered court, her father-in-law carried her 18-months-old child. Ferrell glanced up as she passed, but his eyes sank. Mrs. Lane testified as to her marriage and described the murdered messenger's clothing.

Chief of Police Tyler of Columbus was called to testify regarding Ferrell's confession. The defense objected on the ground that it was made under duress.

Criticism the Missionaries.

Brussels, Oct. 19.—The anti-English feeling in the Congo Free State is daily increasing. The state agents accuse the English and American missionaries of abusing the hospitality of the country by constituting themselves regular political spies and of trading instead of evangelizing. The agents recommend the creation of a state censorship for the purpose of creating what they call the missionaries' "treacherous correspondence with London." The *Sole*, commenting on the transfer of Barotseland, which borders on Katanga, to Mr. Rhodes' chartered company, says that the Congo Free State has need to be afraid of such neighbors.

Long Bicycle Trip.

New York, Oct. 19.—Thomas J. Corcoran of Aspen, 300 miles northwest of Denver, who is riding a wheel from Denver to Boston, has arrived in New York, after averaging seventy miles a day for thirty days. Corcoran starts for Boston today. He left Aspen Aug. 14 and has made his ride alone.

They left for Chicago on the evening

Pastor Cuts Throat in a Cell.

Chicago, Oct. 19.—Rev. S. S. Bandy,
a Baptist minister, was found lying
on the floor of his cell in the basement
of the city hall with his throat cut in
such a manner that it is thought the
wounds will prove fatal. Bandy is 29
years old and was well known in
Arkansas City, where he had been pas-
tor of the Colored Baptist church for
eighteen months. On the night of
Aug. 27 Jennie Hooker, with whom the
preacher is said to have been on terms

wounded in her bedroom by an un-

peared from the city the following

was traced to Nashville, Tenn., but

SUNDAY EVENINGS WITH GREAT HYMNS

Unique Services Conducted by Rev.
W. A. Hall at the Court
M. E. Church.

Rev. Walter A. Hall of Court Street
church, is to conduct a series of Sun-
day evening services which will be
unique. He calls them "Sunday Even-
ings with the Great Hymns." He pro-
poses giving hymn talks, that is, speak-
ing on some of the great hymns on
each Sunday evening. These talks will
be explanatory or expository in charac-
ter. Singing, to be singing, must be
with the spirit and understanding also.
To get the meaning is as important as
to get the tune.

Singing often becomes parrot like and
worthless. The hymns explained, will
be sung at each service. It is hoped
that the orchestra of the Epworth
League can be secured to assist, and
that a series of splendid congregational
singing will be obtained each time. The
choir will render some numbers.

Mr. Hall will preach no sermon as
these talks are designed to take the
place of the sermon. The purpose is
not a sensational service, but one which
shall be devotional and helpful. Next
Sunday evening will be the first of these
services. The hymns beginning with
"If On a Quiet Sea;" "Jesus Lover of
My Soul" and "Come Unto Me" will be
considered. The seats are all free and
the people are all welcome.

During the winter of 1897 Mr. James
Reed, one of the leading citizens and
merchants of Clay, Clay Co., W. Va.,
stuck his leg against a cake of ice in
such a manner as to bruise it severely.
It became very much swollen and pained
him so badly that he could not walk
without the aid of crutches. He was
treated by physicians, also used several
kinds of liniment and two and a half gal-
lons of whisky in bathing it, but nothing
gave any relief until he began using
Chamberlain's Pain Balm. This brought
almost a complete cure in a week's time
and he believes that had he not used
this remedy his leg would have to be
amputated. Pain Balm is unequalled for
sprains, bruises and rheumatism. For

MUSICIANS GIVE FARMER A SCARE

Man and Woman in a Buggy Give Two
Footsore and Weary Men a
Wide Berth.

Some farmers going home from town
early last Saturday morning, was given
a bad scare by two members of Johnnie
Smith's orchestra.

On Friday evening the orchestra had
an engagement to play at a dance at the
La Prairie Grange hall, and drove out
to the hall in a two-seated carriage. Ar-
riving at the hall the horses were un-
hitched from the carriage and tied in
the street near the hall.

When the dance was finished the mu-
sicians prepared to go home, and dis-
covered that in some way one of the
horses had become untied and could not
be found. Search was made in the neigh-
borhood for the missing animal, but no
trace of him could be found. After
talking the matter over, Al. Kneff and
Tony Roth decided they would walk to
town, get another horse, and come back
after the rest of the party. It was nearly
four o'clock Saturday morning when
Kneff and Roth started. After going
quite a distance, they heard a buggy
coming, and decided to stop it and in-
quire of the parties if they had seen any-
thing of the missing horse.

When the buggy was almost to them
the two men stepped into the road and
called on the people in the buggy to
stop. The man in the buggy and the
woman with him evidently thought they
had run into a "hold up gang" and
without stopping to see what was wanted
he began to lash the horse and went by
the two musicians on a dead run and he
did not let up on the horse as long as
he was in hearing of the two men.

No doubt when the man that was
driving the buggy arrived at his home
he had a great story to tell how two
men met him on the road and attempted
to hold him up. The two men that
were the innocent cause of all the trouble
kept on to the city where a horse was
secured and sent out for Smith and
George Hatch, who finally reached home
about 6:30 o'clock Saturday morning.

Both and Kneff have a hearty laugh
every time they think of how the man
and woman in the buggy must have felt
when they attempted to stop them. They
also say that the next time they go to
a dance in the country that they will
see that the horses are securely fastened
as they do not relish five mile walks at
4 o'clock in the morning.

The Jolly Girl

Often changes to the jaded woman. "I can't see what's come over Mary; she used to be such a jolly girl," was the remark of a young woman visiting a married schoolmate. Marriage changes a woman. The drains and pains which are so often the sequence of marriage rob her of all vitality. Give her back her former strength and she'll be as "jolly" a wife as she was a maid. Doctor Pierce's Favorite Prescription gives back the lost strength by re-establishing the health of the delicate womanly organs. It dries the drains and stops the pains. It cures inflammation, inflammation and female weakness. It makes weak women strong and sick women well.

"For two years I had been a sufferer from chronic diseases and female weakness," writes Mrs. Allen A. Hobson, of 123 Robinson Street, Philadelphia, Pa. "I had two different doctors, and they gave me medicine which only relieved me for a time. My niece advised me to take Dr. Pierce's Favorite Prescription. I concluded that to open a correspondence with you for your advice would be safest, so I did, and have been highly benefited. I find that after taking six bottles of 'Favorite Prescription' and five of 'Golden Medical Discovery' and following your advice in regard to local treatment, I am now a strong woman. Accept my sincere thanks for the interest manifested in my case and the happy results obtained."

Sick women are invited to consult Dr. Pierce by letter free. Correspondence private. Address Dr. R. V. Pierce, Buffalo, N. Y.

A PARAMOUNT MAKER

BRYAN IS PEDDLING HIS THIRD EFFORT IN THIS LINE.

First Two Rejected by the People. A Like Fate Awaits His Latest. What the Administration Has Done For the Porto Ricans.

[Special Washington Letter.] Bryan has been identified with three "paramount" issues, to which he has, with all due solemnity, dedicated his life and pledged his powers to ingraft upon the national legislation of the country.

When in the Fifty-second congress nine years ago, he was an ardent champion of free trade. In a speech, long and brilliant, he declared that "a protective tariff was conceived in greed and fashioned in iniquity, false in economy and the most vicious political principle that ever cursed this country." Yet a protective tariff bill was passed by the First congress and approved by Washington. Bryan further declared that he would fight the protective system as long as there was anything to remedy. The struggle between protection and free trade went against him. The people repudiated free trade, and Bryan dropped it. It was not wise to "paramount" free trade when it would not make votes.

Four years ago, realizing that he must "paramount" something else, he took up silver and worked it with all the force of his eloquence. That in turn was repudiated by the people and dropped by Bryan. All his wild prophecies have been proved to be false by the prosperous facts of recent experience.

This year he concluded to let free trade alone, touch lightly on free silver and "paramount" imperialism, and he is working it in the same prophet promising, reckless fashion. In opposing protection he denounced Washington, in advocating free silver he ran counter to all financial experience, in opposing expansion he reflects on Jefferson. After a few more campaigns he may possibly get into line and strike something that is right, but at present there is a big dent in the public confidence as to the accuracy of his prophetic powers and as to his leaderlike ability.

As the silver crown of thorns stamped the Chicago convention, but failed to stamper the country, so the golden crown of imperialism will have no terrors for the people as long as proof of its existence depends on the assertion of the Nebraska prophet who said that the gold standard would starve everybody except the money changers and the money owners.

A study of Mr. Bryan's late speeches emphasizes the well known truth that it is easier to be critical than to be correct.

It is perhaps worth while at the present stage of political misrepresentation to turn aside from assertion and look at some facts as revealed by the conduct of the United States in dealing with Porto Rico. Sentiment is hard to weigh and difficult to appraise at its true market value, but facts are tangible evidence of intention whether they be good or bad.

The so called imperial administration of McKinley has, according to the published statements of Porto Ricans, relieved the inhabitants of that fair Atlantic island of the following:

Stamped paper dues on the transfer of property.

Personal certificates.

Passports.

Export duties.

Tax on professions, trades and occupations.

Import duties have been made nominal, and the Porto Ricans have been given power to abolish them altogether.

Tribute to Spain.

Tribute to the Veragua family.

Tribute to the colonial minister.

War tribute in time of peace.

Navy tribute.

Pensions to retired Spaniards.

Support of mounted police.

Military courts to try political offenders.

Mayors appointed by the government.

All these burdens have been lifted from the shoulders of our insular wards, and in addition to these negative benefits they have been given the following:

Habeas corpus.

Courts of justice composed of Porto Rican magistrates.

A modern free school system.

Uniform currency.

Regularity in exchange.

Autonomous municipal rule.

Increased right of suffrage.

Native police force.

Free justice and quick procedure.

Representation in the executive council.

A house of representatives to legislate for the island.

No people were ever treated more generously, and under the new regime business has doubled in volume in two years. Barons have been lifted, liberty has been extended, education has been advanced, business has increased and the people are prosperous and grateful. In a short time their loyalty to the United States government will put to the blush many of those who try to blind truth by calling the best government on earth an imperial despotism.

Half of the last British loan was taken by people in the United States, so that in place of this country having to work to pay interest to British holders of United States bonds the process is reversed, and the Britisher is now compelled to send money to this country to pay interest on his obligations. This is another condition which Bryan promises to change when he gets into power.

Set Bloodhounds on Trail.

Joliet, Ill., Oct. 19.—Talk of lynching was heard in Joliet among those who witnessed the murderous assault on E. A. Wiley by a negro, J. Tipton. Wiley is foreman of a construction gang on the street railway. Tipton, who was one of the workmen, became incensed at an order given him by Wiley, raised his pick and struck Wiley on the head, causing a fracture. A posse and two bloodhounds are in pursuit of Tipton. Wiley is in a critical condition, but may recover. Tipton bears a bad reputation. A year ago he got into an altercation with a man in Lockport and in the melee chewed his opponent badly. Since then he has been known as "Maneating Tipton."

Miss Gast Under Awful Strain.

New York, Oct. 19.—With her face showing plainly the terrible strain she is undergoing, Marguerite Gast, the girl cyclist, who is trying to establish a record for 3,000 miles on the Valley Stream, L. I., course, completed her two thousand four hundred and seventy-fifth mile at 11:30 today. She had been eleven days, twenty-two hours and thirty minutes in the saddle. She had sprinkled red pepper in her stockings, so that the pain might keep her awake. Save for a rest between 11:20 last night and 3:05 this morning Miss Gast rode continually for fifteen hours. By Saturday she hopes to complete 3,000 miles. No one has yet established a record for more than 2,000 miles.

Army Tragedy in Cuba.

Washington, Oct. 19.—The war department has received the following cablegram:

"Havana, Oct. 18.—Surgeon General, Washington: Major Matt R. Peterson, U. S. V., died of yellow fever at Las Animas at 9 o'clock Oct. 17. Mrs. Peterson, his wife, killed herself an hour later.

"Chief Sanitary Officer."

Major Peterson was of the commissary department and held the rank of captain in the regular establishment. He was a graduate of West Point and was appointed from North Carolina.

Big Orders for Engines.

Philadelphia, Pa., Oct. 19.—The Baldwin Locomotive works, whose shops have been exceedingly busy for many months, have booked two large domestic orders for engines. One is for thirty freight locomotives for the Chicago, Burlington & Quincy railroad, and the other is for thirty-two engines for the Union Pacific company. A member of the firm states that the report that an order had been received for locomotives from the director of the South African railway is not correct.

Dillingham Is Elected.

Montpelier, Vt., Oct. 19.—Ex-Gov. W. P. Dillingham was elected. United States senator by the Vermont legislature. The choice was made on the third ballot, C. A. Prouty, one of the four Republican candidates, having withdrawn, and the Democratic members who previously had voted for Seneca Hazelton having decided to support Dillingham.

Melt one tablespoonful of butter and mix in lightly. Now add the stiffly beaten whites of the eggs; mix very lightly. Heat a frying pan sparingly buttered, turn the mixture into it and place over a quick fire, taking great care that it does not burn. Loosen occasionally with a fork so that the omelet does not stick to the pan, and as the frying pan in the oven to set the middle of the omelet. MR. BRYAN'S WARNING

"If there is anyone who believes that the gold standard is a good thing, or that it must be maintained, I warn him not to cast his vote for the because I promise him it will not be maintained in this country longer than I am able to get rid of it."—Hon. William Jennings Bryan, Knoxville, Tenn., Sept. 16, 1896.

OSTEOPATHY.

The farce now being enacted in Milwaukee, instigated by the State Board of Medical Examiners, and directed against Osteopathy, in the arrest and trial of Dr. Thompson, a reputable practitioner of the science, is an insult to the intelligence of the state.

The ignorance of this new science, as exhibited by the State Board, simply shows how narrow and full of prejudice intelligent men sometimes become. One member calls it massage, another faith cure, and the entire Board have no hesitancy in pronouncing it a fake.

It is undoubtedly true that a great deal of wisdom will expire when these wise men are translated. It is equally true that Osteopathy will outlive them and will continue to bless humanity long after its narrow minded persecutors are forgotten. The professional man, be he doctor, lawyer, professor or clergyman, who is so hidebound that he will not investigate the claims of science, has no right to live and practice his profession in this intelligent and progressive age. The people have no sort of sympathy with this kind of bigotry, and the court of public opinion will speedily set the seal of disapproval upon any man or set of men whose prejudices stand in the way of progress.

The mission of a physician as it is generally understood is a sacred mission. He is supposed to possess the knowledge and ability to cope with diseases of various kinds. In the development of science he owes it to himself and to the people who employ him with implicit confidence, to throw aside prejudice and investigate with candor and a desire to gain useful knowledge.

Osteopathy is a science as profound as any of recent discovery. It was brought out and developed by an old time physician who for twenty-five years had been a successful practitioner.

It is based on the simple proposition that when the circulation of the body is normal you are in the enjoyment of health. It teaches how to restore and preserve these normal conditions without the use of drugs. The graduates of reputable Osteopathic colleges spend as much time and more money in acquiring their education than do the graduates of medical colleges. They enter the

profession with a thorough knowledge of anatomy and physiology and are capable of making a close diagnosis, which is more than can be said of many physicians. They do not study or practice surgery except in minor cases. Neither does the ordinary physician. Both schools recognize that the science of surgery is a field by itself.

THE LEGISLATIVE TICKET.

That Rock County will be ably represented in the next session of the legislature is not a question of doubt. The renomination of John M. Whitehead for State Senator was a fitting endorsement. Mr. Whitehead belongs to the class of men who bring honor to an office, and his work in the last legislature is still fresh in the minds of his many friends throughout the county and senatorial district who will be glad to support him again. Not only at home, but in all parts of the state his name is familiar and his integrity of character recognized. He brings to the office intelligence to grasp the important questions and ability to deal with them in a manner that makes him a leader in the upper house. His candidacy for Governor demonstrated the fact that his colleagues in the last senate were his friends and warm supporters. The county is fortunate in being able to again secure his services and it is safe to say that no county in the state will be more ably represented.

In the lower house the names of Chas. L. Valentine of the first, Almeron Eager of the second, and Halvor Cleophas of the third district, contribute to the strength of the republican ticket. Mr. Valentine is familiarly known throughout the county. For many years he rendered faithful service as Register of Deeds. A man of unimpeachable character and keen perception, he will intelligently represent his district in the assembly.

Mr. Eager is one of the substantial residents of Evansville, which city has long been his home.

Mr. Cleophas, of Orfordville, is also an old time resident of the county. These gentlemen enjoy the confidence of their friends to a degree that places them in positions of responsibility and trust. They will not be found wanting as legislators.

THE COUNTY TICKET.

The national and state campaigns have been so absorbing in interest that but little attention is being paid to county politics. The same ballot that elects McKinley and Roosevelt will also elect a full county ticket and there is no question about the political complexion of that ticket. The republicans have placed in nomination a list of good names that the party will elect by an old time majority.

Royal J. Maltress

Heads the ticket for the office of Sheriff. Mr. Maltress is an Edgerton man. He enjoys the reputation of being honest and capable, and he will bring to the office the intelligence so necessary to a successful administration. The party made no mistake in his nomination, and his election is not a matter of doubt.

F. P. Starr,

Whose name appears on the ticket for County Clerk, is the present incumbent of that office. His renomination is an endorsement of faithful work, which he will continue to do for the county for the two years to come.

Theodore W. Goldin,

The efficient Clerk of the Court, is also favored by another term. Mr. Goldin has been found to be the right man in the right place, and the party wisely in setting the seal of approval upon his work. Courteous and intelligent he brings to the office the qualities that bar criticism, and contribute to his popularity.

What is true of Mr. Goldin is equally true of

Oscar D. Rowe,

The present incumbent and the nominee for the office of Register of Deeds has been tried and not found wanting. The party had no occasion to take up another candidate. Mr. Rowe has a host of friends throughout the county who will be glad of the opportunity to support him in November.

Miles Rice,

Of the town of Milton, will be the next custodian of the county's funds. Mr. Rice is an old resident of the county and enjoys an enviable reputation. He will bring to the office the qualities of a good Treasurer, sustaining the high reputation for honor and honesty that this important office has long enjoyed.

W. A. Jackson,

Who has so ably filled the office of District Attorney, will continue to preside in this office. Mr. Jackson is a product of Janesville and his many friends have watched his career with interest. That he has not disappointed them is freely acknowledged. He possesses ability and determination and will continue to render the county efficient service.

C. V. Kerch,

The candidate for County Surveyor, is well qualified for this work. He has had experience that will be valuable to him in acceptably filling the office to which he will be elected.

J. R. Booth

Is also qualified for the office of Coroner, an office that is frequently referred to as a by-word, and yet of importance.

The county ticket throughout is strong and the administration of office in every department will be clean and wholesome.

The Sale Was Well Attended and a Large Amount of Live Stock Was Disposed of—Some of Those Who Made Purchases of the Horses Put Up.

The auction sale at the Woodruff farm, one mile west of the city yesterday, was well attended, and a large amount of live stock, carriages, harnesses and horses were disposed of. The day was perfect for handling an auction, and W. T. Dooley had charge of the sale, and kept a spirited bidding.

The greatest interest was taken in the sale when the horses were auctioned off. They were a good lot, and brought fair prices. MODEL GROCERY OPENS SATURDAY

O. D. Bates Will Have a Store Second to None—A Credit to the City.

Saturday morning, October 20, the citizens of Janesville and Rock county will have the pleasure of inspecting one of the most model grocery stores in this part of the state. O. D. Bates of this city is the proprietor of this new addition to Janesville business houses, he having leased for a term of years the spacious store in the Court Street M. E. church block at the corner of Main and Court streets.

During the past month, carpenters, masons, paper hangers and painters have been busily engaged in remodeling the store from one end to the other. It is complete in every respect, and lacks for nothing. Two thousand feet of space has been utilized. Spacious windows furnished perfect light. Several incandescent lights will supply illumination at night. On Court street the store fronts 150 feet giving ample opportunity for hitching many teams. The entire stock is fresh. Fine teas and coffees will be a specialty with the firm, they having devoted one entire portion of their store to this department. No man is better fitted to care for this department than Mr. Bates. For some time he conducted the exclusive tea and coffee store known as the Bates Cash Tea Company store on the bridge. Mr. Bates will have associated with him his brother, William J. Bates, who was a former member of the well known grocery firm of Stevens & Bates.

O. D. and W. J. Bates have both been interested in the grocery business of Janesville for a number of years. They both being well qualified for the task before them, Mr. Bates is possessed of many true friends throughout the county who will wish them unlimited success.

WILLING TO TAKE
ANOTHER CHANCE

Mrs. Vira Van Etta Was Married in Chicago to Traveling Man By the Name of Jones.

The second act in the Van Etta divorce case took place in Chicago. Mrs. Vira Van Etta to whom the divorce from George N. Van Etta was granted on the grounds of cruel and inhuman treatment seems willing to take another chance in the matrimonial lottery, so this week she was married in Chicago to a traveling salesman by the name of Jones.

Mrs. Jones is a daughter of Mr. and Mrs. A. O. Vincent, who run a hotel at Lake Koshkonong. She is known in this city. She was married to George N. Van Etta several years ago and has one child, a boy. Married life did not run smoothly and finally culminated in a divorce which was granted on September 15. In her complaint filed at that time she alleged that on account of ill treatment she had left the defendant and had not lived with him for some time. That he drank heavily and when under the influence of liquor was very abusive and mistreated her and on one occasion had struck her and knocked her down.

It is hoped she will have better success with her new husband and that her wedded life will run more smoothly.

PRETTY FAST WORK FOR CORN SHREDDER

Fred Trisfeldt, a brother of August Trisfeldt, who had his hand so badly hurt in a corn shredder on the Fish farm near Leyden yesterday, had the same experience this morning as his brother had yesterday. He was in town last night to see his brother, who is at Mrs. Henderson's hospital, and told him if he had been careful he would not have had his hand hurt. This morning he was working around the same machine, and before he realized what had happened his left hand was drawn in among the knives and cogs, and when he succeeded in getting it loose, he found that two fingers were badly lacerated. He came to town and Dr. Woods made him as comfortable as possible. Two brothers in two days is pretty fast work for one corn shredder.

A NOVEL DUEL.

Kentucky Preacher Chose Potatoes as Weapons.

One way of combating an evil practice is to make it look ridiculous. It was by this means that dueling was stopped in a certain district in Kentucky. A traveling preacher named Bowman—a strong, muscular fellow—was conducting services in Kentucky.

At one of his meetings a well-known desperate character created a disturbance, and, being publicly rebuked by Bowman, sent him a challenge to fight. Bowman, as the challenged party, had the choice of weapons. He selected a half bushel of Irish potatoes, as big as his fist, for each man, and stipulated that his opponent must stand fifteen paces distant, and that only one potato at a time should be taken from the measure. The desperado was furious at being thus freshly insulted, and made an indignant protest, but Bowman insisted upon his rights as the challenged man, and threatened to denounce the desperado as a coward if he failed to come to time. As there was no way out of the fix but to fight the desperado consented. The encounter took place on the outskirts of the town, and almost everybody in the place was on hand to see the fun. The seconds arranged the two men in position, by the side of each being a half bushel measure filled with large, hard Irish potatoes. Bowman threw the first tuber. It struck his opponent and flew into pieces. A yell of delight went up from the crowd, which hurried the desperado, and his potato flew wide of the mark. Bowman watched his chance, and every time his opponent stooped for a potato another him him in the short ribs, knocking the wind completely out of him, and doubling him up on the grass. The people were almost crazy with laughter, but Bowman looked as solemn as if he had just been preaching a funeral sermon. The desperado was taken home and put to bed, and stayed there for more than a week before he recovered from the effects of the Irish potato duel.

About Preserves and Sauces.

Chemists say that it takes more than twice as much sugar to sweeten preserves, sauces, etc., if put in when they begin to cook than it does to add it after the process is accomplished.

In using tinned apricots or peaches, a drop or two of almond essence added is a great improvement as it supplies the loss of the kernel flavoring.

FELL AND BROKE HER RIGHT ARM

Serious Accident to Mrs. J. P. Baker on South Main Street Yesterday Afternoon.

In trying to get out of a carriage before it was wrecked by a passing street car, Mrs. J. P. Baker of 204 North High street, fell and broke her right arm at the elbow. It is a very painful break, and will lay Mrs. Baker up for some time.

Mrs. H. G. Carter, accompanied by Madames J. P. Baker, W. H. Greenman and J. J. Hall were taking a drive in Mrs. Carter's carriage, and had driven up in front of Sutherland's bookstore to allow Mrs. Carter and Mrs. Hall to do some shopping. Mrs. Greenman was left in charge of the horse, and sat on the front seat, Mrs. Baker occupying the rear seat. A number of carriages along the curb prevented them from driving up close, and they stopped in the rear of another carriage.

The owner of the carriage, a lady, soon came out of the store and started to back her buggy out from the curb. This compelled Mrs. Greenman to back up her horse, and without knowing it she backed onto the street car track directly in front of the rapidly approaching Main street car, which before it could be stopped, crashed into the carriage, wrecking the two rear wheels.

Mrs. Baker being on the rear seat saw the approaching car and seeing they were going to be struck jumped out of the carriage. In so doing she became entangled in the lap robe and fell heavily to the ground striking on her right side and arm. Mrs. Baker was picked up and carried into Putnam Bros. store and Dr. Q. O. Sutherland called to attend her. He saw that her arm was broken and she was taken to her office where with Dr. James Gibson's assistance the fracture was reduced. The arm was broken just above the elbow.

The Main street car was running at a good rate of speed and the carriage was not backed onto the track until it was too late to stop the car.

CHIEF TRIES THE CHEMICAL ENGINE

It Threw a Half Inch Stream About Fifty Feet Which Is Considered Sufficient Test.

Chief Engineer Spencer of the fire department now has the chemical engine in working order. It was taken up near the Thoroughgood factory this morning and tested. It threw a half inch stream about fifty feet which is considered a sufficient distance for all purposes for which the machine can be used. It took nine minutes to empty one tank which holds eighty gallons of chemicals.

The machine is so arranged that while one tank is being emptied the other can be filled and a continuous stream kept up. The greatest drawback to this engine is its weight, it being much heavier than the fire patrol wagon with a load.

The machine is now housed in the East Side engine house in the place of the patrol wagon which will be housed near by for ambulance calls.

HE REPORTS ON THE ARMY.

Surgeon-General Sternberg Urges Increase of Medical Force.

TELLS OF INSANITY CASES.

Major Ruhlen in Command at Honolulu, Asks Land for a Military Post—Conditions Prevailing at the West Point Academy.

Washington, D. C., Oct. 19.—The report of Surgeon General Sternberg, U. S. A., says that the present force of the medical department consists of 192 officers, which he says is not enough. A report from the chief surgeon of the Philippines, dated Aug. 15, 1900, is given, showing a percentage of 8.47 sick for the command, the total strength of the army in the Philippines at that time being 60,554. The surgeon-general explains the conditions in the Philippines as follows: "The exposures, ratguts and excitement of a prolonged campaign are responsible for the large sick report and the relatively large death rate among the troops in the Philippines. However, the opinion is prevalent among our medical officers that in time of peace and doing only garrison duty the sick rate of the army in the Philippine islands would be no higher than it ordinarily is in the southern United States."

The surgeon general has this to say on the controversial subject of insanity among the troops:

"In the army, regulars and volunteers, during the calendar years 1895 and 1899, there were reported on the monthly reports of sick and wounded 247 cases of insanity, and 202 of these cases, or 82.2 per cent, were committed to the government hospital for the insane. One hundred and thirty-five cases recovered in an average period of 3.9 months, thirteen were improved, six died and forty-eight remained unimproved."

Report on Hawaiian Force.
In the annual report of Major General Shafter, commanding the department of California, there is a report from Major George Ruhlen, depot quartermaster at Honolulu. The garrison at Honolulu consists of two batteries, Sixth artillery. He says the troops should be quartered in plain, frame buildings, rather than in canvas.

The transport service has used the port of Honolulu extensively and during the year stopped at Honolulu en route from San Francisco to Manila, fifty-three transports, with troops and supplies; one with supplies only, thirteen with horses, mules and supplies, and one hospital ship.

In addition to the land required for military reservation, the report advocates the purchase of about thirty acres more in order to make it desirable as a military site.

Report on West Point.
Col. A. L. Mills, superintendent of the military academy at West Point, in his annual report, says the health of the cadets has been excellent, though many have had trouble with their eyes. It is hoped that their condition will be improved when new gas burners are instituted in the academy.

He compliments the graduating class of this year and speaks in commendatory terms of athletic sports, saying that the football match between the military and naval academies causes no relaxation of attention to studies and instruction.

He says there has been "an absolute end this summer to the particularly extreme forms of hazing the new cadets, which were referred to in the last annual report. This condition has been brought about largely by the voluntary action of the cadets themselves."

The superintendent devotes the greater part of his report to an earnest plea for the elevation of the standard of admission to West Point, to which end he suggests that the secretary of war be empowered to prescribe these requirements.

TO KEEP PACE WITH GERMANY.

Plan to Increase American Navy So as to Rival Kaiser's Fleet.
New York, Oct. 19.—Germany's great naval increase will play an important part in the determination of the recommendation for new vessels which the naval board on construction will submit to Secretary Long, says the Washington correspondent of the Herald. All the members desire that this government shall have a navy at least the size of that of Germany and some favor a fleet which shall make the United States the third naval power of the world.

From present indications the board

Philadelphia, Pa., Oct. 19.—Con McVey, the big fellow who lost the fight between Corbett and Sharkey for the former by getting into the ring at a time when the Californian seemed to be losing his strength, is under arrest here. He had a quarrel in a hotel and one of the porters attempted to eject him. In the scramble that followed McVey almost bit off one of the porter's ears, besides seriously injuring the man internally.

"I wish to express my thanks to the manufacturers of Chamberlain's Colic, Cholera and Diarrhoea Remedy for having put on the market such a wonderful medicine," says W. W. Youtsey's Trial Near the End.
Georgetown, Ky., Oct. 19.—The Youtsey trial is drawing rapidly to a close. All the testimony is in, the instructions have been given to the jury and the speeches are being made. There is no improvement in Youtsey's condition, though he is not any worse. Now and then the paroxysms return, and for an hour afterward he is much worse, but is still able to rally, showing remarkable vitality.

Galveston List Is Growing.
Galveston, Oct. 19.—One month and eleven days have elapsed since the storm, and still the number of bodies recovered daily does not decrease. Forty-two were recovered yesterday. This makes a record of 107 for the last four days. The total number of bodies officially reported to have been recovered is 2,907. A great many bodies were found, however, of which no report was made. It is not known how many were carried out to sea or to the mainland, or how many still remain under the debris. There is no reason to reduce the former estimate of the loss of life.

The Two Sick Kings.
Berlin, Oct. 19.—It is now known that the illness of King Oscar of Saxony, which has recently become more acute, is due to a cancerous affection of the bladder, which his medical attendants consider incurable.
Copenhagen, Oct. 19.—It is announced that the immediate danger attending the illness of King Oscar has passed, but that he will require a long rest.

Kills an Obnoxious Parent.
Columbus, Ind., Oct. 19.—At Waymansville, Ind., fifteen miles south of here, Dr. Conda Beck shot and instantly killed William Barton because Barton objected to Beck keeping company with his daughter. Two years ago Beck killed Miss Grace Cohoe because she refused to marry him. Beck was acquitted of the crime. The tragedy has caused great excitement. Beck, at latest accounts, was still at large.

Washington, Oct. 19.—Alarming news confirming the statements that yellow fever is epidemic in Cuba was received by the surgeon general's department. In Havana it is stated that not a single block is exempt from the scourge, while in some as high as seventeen cases is reported.

CHINA NOW ASKS FOR PEACE.

Officials Send Note to Diplomatic Corps at Peking.

WANT HOSTILITIES TO END.

Offer Fresh Commercial Advantages and Indemnity for the Legations Destroyed—Heads of Boxers on a Wall—Men Called for Decapitation.

Paris, Oct. 19.—A news agency has received the following dispatch from Peking:

"The diplomatic corps has received a joint note from Li Hung Chang and Prince Ching, saying that it is time to end the present situation and to treat for peace, and that the Prince and Ministers who were accomplices of the Boxers will be handed over to the courts to be judged and punished according to Chinese law.

"In their quality of plenipotentiaries Li Hung Chang and Prince Ching offer to treat for peace and accept the principle of indemnities for the legations destroyed. The losses are to be estimated by delegates of the powers. European nations can be accorded fresh commercial advantages or the old treaties modified; but, as the requirements of the powers vary, each power must formulate its own.

"The plenipotentiaries demand an immediate cessation of hostilities because of their offer and request an interview with the Tsung-li-Yamen for Oct. 21.

"Replying to the note, M. Pichon, the French minister, said that China, having recognized that she had violated the law of nations, was bound to accept, for that very reason, the responsibilities involved. Consequently he demanded that exemplary punishment be inflicted upon the principals guilty, namely, Prince Tuan, Prince Cawang, Kang Yi, and Tung Fu Hsiang, adding that so long as their heads had not fallen it was impossible to cease hostilities.

"M. Pichon has been confined to his bed for several days with a slight attack of typhus, but his condition is not grave. Owing to the arrival of Count von Waldersee, General Veyron (commander of the French forces) has decided to prolong his stay in Peking until he receives fresh orders."

China's Action Seemed Arrogant.
London, Oct. 19.—The Peking correspondent of the Times describes the tone of the plenipotentiaries' note to the Ministers as characteristically arrogant, and as if the position were that China was offering terms instead of Europe dictating them.

Conger Sends Word.
Washington, D. C., Oct. 19.—An important dispatch was received at the State Department from Mr. Conger, the United States Minister at Peking, which formed the subject of a conference between President McKinley and Secretary Hay. Mr. Conger's message contained a list of propositions submitted in behalf of the Chinese government by Li Hung Chang and Prince Ching, the peace envoys, which China would like the powers to adopt as a basis for peace negotiations.

Minister Wu called at the State Department by appointment, and had a long conference with Secretary Hay.

Boxers' Heads on Walls.
Peking, Oct. 19.—The Peking column of the Paoingtu expedition arrived at a point six miles south of Chichow yesterday without encountering opposition. They found the heads of fourteen boxers on the walls at Chouchoon and they killed seven of the imperial troops. Field Marshal Count von Waldersee has arrived here and has been accorded full military honors. He was accompanied by an escort of international troops to the palace of the dowager empress.

Decree Means Death.
Shanghai, Oct. 19.—Chang Chi Tung, viceroy of Hupeh, has been ordered to proceed at once to the Chinese court. This decree has caused considerable consternation among the people of his province. It is feared that the command is only a preliminary to his execution. It is reported here that Li Hung Chang has been degraded on account of his failure to prevent the advances of the allies on Paoingtu.

grade, or so fine, that it was too good for our stock. The choicest that ever fed upon pasture lands, or drank from clear running brook, is what we look for and get. That cow that was in such good condition that it jumped over the moon, would have been the meat for us if we could have lassoed it. When you want prime, juicy meat call upon us, and you will get the finest in the land.

MYSTERY IN A MURDER.

Man's Body Found Cut to Pieces in a Massachusetts Pond.

Lynn, Mass., Oct. 19.—That great "trunk tragedy," as it was known throughout all New England back in 1872—when the mutilated body of Jennie Clark was found wedged into a trunk which had been picked up in the Saugus river—was in some respects no more mysterious than the murder which was revealed yesterday by the finding of a man's body, decapitated and denuded of the limbs, in a gunny sack in Glenmere pond.

Later in the day two other bags were found. Each contained a missing leg.

The police are inclined to the belief that George E. Bailey has been murdered, and have taken under arrest John C. Best, 32 years of age, a farm hand employed on the estate of which the supposed victim of the murder was caretaker. The police in searching the Breakhart Hill farm house, where the men live, found in the barn cellar an ax which bore bloodstains, but it is not certain they are of human blood. Similar stains are on a window sill and on a piece of cardboard in a room of the house.

Bailey disappeared on Oct. 8. It was supposed that he followed his wife to Wiscasset, Me., the couple having had a disagreement.

Last night a cobbler identified the shoes found on the feet in the smaller sacks, as a pair he had recently repaired for Bailey.

FRANCE TO WELCOME KRUGER

Said He Will Be Received with Honors Due a Ruler, to Spite England.

New York, Oct. 19.—It is stated on excellent authority, says a cablegram to the Times from Paris, that ex-President Kruger will, after landing at Marseilles, pass through Paris, and that he will be received with all the honors due to the head of a state. The municipality of Marseilles is making preparations for a grand reception for Kruger, and it is quite certain that he will be enthusiastically welcomed by the population in general. The commencement of active defense in the Transvaal has reawakened European interest in the Boer cause and the French government, in common with other European governments, is not sorry to see this reawakening of sympathy, as Great Britain's hands are all but completely tied, while the Boers remain active.

Cuts His Wife's Throat.

Minneapolis, Minn., Oct. 19.—Peter Amor of Sandstone, Minn., cut his wife's throat in a lodging-house in this city and then hacked away at his own neck until he cut the jugular vein. The woman will live, but Amor will die. Mrs. Amor was seated in her room holding her two babies on her lap, when Amor strode up behind her, and, without saying a word, forced her head back and drew the keen edge of a razor across her exposed throat. In an instant the woman and her children were drenched in blood. Amor then slashed his own throat repeatedly, soon becoming unconscious from the loss of blood. The Amors came from Sandstone four days ago and were en route to Litchfield, Minn. Amor had been drinking heavily.

Escape from Reformatory.

Lacrosse, Wis., Oct. 19.—The police received word this morning that a wholesale delivery had occurred last night at the Red Wing, Minn., state reformatory, seven boys making their escape. They are believed to be headed toward Lacrosse, and the officers will keep a lookout for them. The ring-leader was a colored boy 17 years old.

On the 10th of December 1897, Rev. S. A. Donohue, pastor of the M. E. church of South Pleasant, W. Va., contracted a severe cold which was attended from the beginning by violent coughing. He says: "After resorting to a number of so-called 'specifics' usually kept in the house, to no purpose, I purchased a bottle of Chamberlain's Cough Remedy, which acted like a charm. I most cheerfully recommend it to the public." For sale by Smith's Pharmacy, next P. O., kodak agents.

Boers Will Not Stay Pacified. Pretoria, Oct. 19.—The Boers are daily tearing up portions of the railroad and cutting the telephone and telegraph wires.

ECZEMA'S ITCH IS TORTURE.

Eczeema is caused by an acid humor in the blood coming in contact with the skin and producing great redness and inflammation; little pustular eruptions form and discharge a thin, sticky fluid, which dries and scales off; sometimes the skin is hard, dry and fissured. Eczeema in any form is a tormenting, stubborn disease, and the itching and burning at times are almost unbearable; the acid burning humor seems to ooze out and set the skin on fire. Salves, washes nor other external applications do any real good, for as long as the poison remains in the blood it will keep the skin irritated.

BAD FORM OF TETTER.

"For three years I had Tetters on my hands, which caused them to swell to twice their natural size. Part of the time the disease was in the form of running sores, very painful and causing me much discomfort. Four doctors said the Tetters had progressed too far to be cured, and they could do nothing for me. I took only three bottles of S. S. S. and was completely cured. This was fifteen years ago, and I have never since seen any sign of my old trouble."—Mrs. L. B. JACKSON, 1414 McClellan St., Kansas City, Mo.

S. S. S. neutralizes this acid poison, cools the blood and restores it to a healthy, natural state, and the rough, unhealthy skin becomes soft, smooth and clear. SSS cures Tetters, Erysipelas, Psoriasis, Salt Rheum and all skin diseases due to a poisoned condition of the blood. Send for our book and write us about your case. Our physicians have made these diseases a life study, and can help you by their advice; we make no charge for this service. All correspondence is conducted in strictest confidence.
